WHY ME?

As a Computer Engineer graduate I'm able to programming using the more popular languages, analyze and identifying problems and tasks, create workflows and write technical documentation.

I also have good capacities of working with others, managing conflicts and leading and coordinate small and big teams, delegating and accepting tasks, following directions, communicating clearly and providing feedback.

I'm able to work under pressure in order to meet strict deadlines with great attention and focus to details and capable to meet deadlines and goals, prioritizing and planning them with a focus on time management and in productivity.
